

FIFTY-THIRD CONGRESS.

Second Session.
WASHINGTON, Feb. 6.—SENATE.—The opening of Tuesday's session in the senate was accompanied by a rather stormy scene between two of the members of that body, Mr. Mitchell (rep., Ore.) and Mr. Harria. The district appropriation bill was taken up and passed. Atene point the financial question broke out in the shape of an amendment offered by Mr. McLaughlin (dem., Miss.), looking to the collocation of the silver bullion in the treasury to the amount of seigniorage (\$35,000,000), but the amendment to which it was offered was defeated.

ed by a veto of the senate to be cut off and Mr. McLaury's amendment fell with it. The diplomatic and consular appropriation bill was taken up, net, however, displacing the bankruptcy bill as the unfinished business of the senate at 4:45, after a brief executive session, adjourned.

HOUSE.—Most interesting of the financial speeches in the house Tuesday was that of Speaker Reed, who calmly and dispassionately explained the situation and argued in favor of his substitute embodying the features of the Wilson plan. The debate on the administration bill, which would increase the \$500,000,000 gold bond authorization to \$1,000,000,000, was held by a majority of 150 to 100.

WASHINGTON, Feb. 7.—SENATE.—During consideration of the diplomatic and consular appropriation bill, the senate, by yeas 19 and nays 11, amended the appropriation \$500,000 for immediately beginning the construction of a cable from America to Hawaii brought about a considerable debate, a little of which was unfridly to the measure. A protracted debate followed as to the constitutional right of the government to own construction railroads, telegraph and cable lines being participated in by Mr. Platt and

HOTAZ—Wednesday, Mr. Island introduced a substitute for the Springer currency bill. It provides for free and unlimited exchange of silver and the retirement of the treasury notes by issuing in their stead silver dollars coined from the bullion. The administration bill was taken up and the following amendments agreed to: Making the bonds payable at the pleasure of the government after ten years, and due fifty years; to limit the amount of legal tender retired by the amount of additional circulation taken out by national banks; imposing, in lieu

WASHINGTON, Feb. 8.—SENATE.—The diplomatic bill was before the senate Thursday to the hour of adjournment, when it went without action on the item for the consular

tion of a telegraph cable between the United States and the Hawaiian Islands. Speeches were made by Senator Higgins (rep., Del.) in favor of the item and by Senators Platt (dem., Ill.) and Caffery (dem., La.) against it. The senate at 5:30 adjourned till Friday.

Flora—The Springer finance was again discussed Thursday. Several amendments were agreed to, and one by Mr. Livingston (dem., Ga.), with the provision that the repeal should go into effect July, 1895, was defeated. The Springer bill was voted down by 161 yeas, nays 134. The Reed substitute was killed just prior thereto—100 to 187. An analysis of the vote

on the Springer bill shows that 44 republicans and 30 democrats voted for the bill, and republicans, and 97 democrats, and 5 populists voted against it. When the house resumed consideration of the Springer bill, the bill was passed by the issue of \$400,000,000 of gold bonds. The pending question was on the appeal from the decision of the chair ruling the amendments of Mr. Hland (dem. Mo.) out of order. The chair was sustained, 130 to 52.

WASHINGTON, Feb. 9.—SENATE.—The president's message was received Friday and referred. Senator Lodge by request introduced a bill to provide for the issue of \$1,240,000,000 of bonds, payable in gold coin at 2 1/2%.

cent. Interest, to run from ten to twenty years. Unanimous consent was secured for a vote on the Hawaiian cable amendment. The diplomatic and consular appropriation bill was passed by a vote of 219 to 171 at 2:30 Saturday. The president's message giving Minister Willis' latest dispatches at the sentences of death in Hawaii was presented and read amid impressive silence. Hise said the tragic and melancholy rest foreshadowed by Minister Willis' showed the imperative need of a cable. It would have been averted or postponed this tragedy.

HORACE—Discussion and filibustering on the appropriation bill to allow congressmen ele

at \$1,000 per annum brought forward an amendment to the legislative appropriation bill, retarded progress on that measure in house Friday. The bill was laid aside. President Cleveland's message was received with slight applause on the democratic side. Speaker Crisp promptly referred the message to the committee on ways and means. There was no debate preceding its reference and untaken objection. The message from president to the Italian question and accompanying papers were read. Referred ways and means committee.

WASHINGTON, Feb. 11.—SENATE—No business.

House.—No business of importance transacted Saturday. The house ways and means committee took up the consideration of a memorial from the act of consolidation, and after much difference of opinion made itself manifest immediately that the business was postponed until 1 p. m. Monday. Mr. Blynum (D) proposed a resolution to amend the act of 1890 so as to make it authorize the issue of bonds bearing interest at a rate not to exceed three per cent, and payable in gold coin. Chairman Wilson proposed a resolution to apply only to the contemplated issue which was the subject of

WASHINGTON, Feb. 12.—SENATE. Mr. Dwyer (rep., Minnesota) submitted resolutions for the legislature of Minnesota, characterizing the railroad pooling bill as an effort to "create a gigantic trust," and requesting the Minnesota senators and representatives to vote against the measure. Resolutions were introduced by which the legislatures of both Minnesota and Wisconsin expressed themselves in favor of the election of United States senators.

by direct vote of the people. Senator Ito grew introduced a resolution requesting the president to have suit brought against the directors and stockholders of the Union Central Pacific railroads for certain recent transactions.

House.—A bill to incorporate the International Pacific Cable Co. for a cable from California to the Hawaiian Islands, and thence to Japan and other points in the Pacific and mainland of Asia and Australia was introduced in the house Monday. Representatives Beckman, Lockwood, Brown and Jones, of the select committee, have united in a minor report against the bill, reported by the

ity giving the U. S. district judges the jurisdiction to determine the prima facie right of a member-elect to his seat, pending a final decision by the house itself. The minority held that this is a blow at the constitutional right of candidates.

FRIDAY, FEBRUARY 15, 1895.

It is worth something to learn—and especially to have the silver men learn—by the stern logic of facts that it costs something to incur even the suspicion of intending to pay our obligations in anything but the money of the world. That is what the additional percentage on coin bonds over gold bonds means. —Detroit Free Press.

The past record of President Cleveland shows that he is a far-seeing man. That he sees ahead of the present has been demonstrated by all his declarations and theories on great questions. Tariff reform defeated him in 1888, just after he had come out so strongly for it. It elected him overwhelmingly four years later. His declaration on silver was pronounced his death-knell at the time he made it, but in two or three years he was the only man the people clamored for as a candidate for President. Time will demonstrate his wisdom in present affairs.

The Kentucky Republicans are chuckling over the differences of the Kentucky Democrats on the silver question. But do the Kentucky Republicans know how they stand themselves on the silver question? Who, for instance, is not excepting the Colonel himself—could expound just what are the monetary views of their leader, Colonel W. O. Bradley? —Courier-Journal. If anyone ever heard of Colonel Bradley harboring views on any public question, much less putting himself on record touching any great issue before the matter was decided we should like for this person to stand up.—Kentucky Post.

This United States is a pretty big country, we think, but it lacks several years growth of being large enough to swing the world. The international basis of business transactions is gold coin, and however much we may regret this fact, and however strongly we may desire a silver basis, we are yet unable to revolutionize the world in this great money matter. The constitution prevails and we may as well accept it for the present. Maybe we'll get large enough some day to have the world do our bidding, but we have not reached that point yet. Silver should enter as largely as possible into the money of our country, but to Mexicanize us would be a dangerous proceeding.

This law is found on the statute books of New York, Section 2519, of the Penal Code:

"Any person who willfully states, delivers or transmits by any means whatever to any manager, editor, publisher, reporter or other employee of a publisher of any news paper, magazine, publication, periodical or serial, any statement concerning any person or corporation, which, if published therein, would be a libel, is guilty of a misdemeanor."

The Louisville Post asks that each paper in the state place this at the head of their editorial column, and asks the local representative to see that such a law is passed by the next legislature.

Congress should not on the immediate question, this session, but if it falls to do so, we want to see an extra session called at once. The contest is now on and a speedy settlement is most desirable. If the Democrats cannot agree upon a measure, and Republicans will only be obstructive, then let them have an opportunity to show their colors. Today the Republican party is a badly torn-up upon the financial question as are the Democrats. No financial legislation will pass by a party unless it be a compromise bill. The financial question will cause the old parties to form along new lines. Political enemies will cause the politicians to cause the issue, but in time the division will come and it would seem that the time is almost here. The South and West are joining about Post-month Times.

Hon. C. M. Clay, Jr.

Public sentiment in the gubernatorial contest all over the State is now changing rapidly in favor of the former Statesman, Hon. C. M. Clay, of Paris. There has never been, nor is it likely that there ever will be, any candidates in the race save Clay and Hardin and now the feeling is becoming general throughout the State that Hardin's nomination would mean defeat for the party. Mr. Hardin is a good man, as far as that goes, but the statement, whether true or not, that he is heavily backed by a certain corporation of railroad contractors is doing its full share toward turning the tide in Mr. Clay's favor. The Democracy of Kentucky wants just such honesty and integrity as is found in the person of Mr. Clay.—Kentucky Democrat.

The French steamer La Gasconne, eight days overdue, came safely into New York harbor Monday. As in the case of many other delayed vessels, there appears to have been greater excitement and anxiety on land than on La Gasconne. When only three days out her machinery became seriously disabled, but the ship was in no danger at any time, although severe gales were encountered on the latter part of the voyage. Two days were lost entirely while the machinery was being temporarily repaired, and after that only slow time could be made.

The greatest interest Eastern Kentucky Democrats have in the race for the nomination for Governor is a desire to see a clean and able man nominated—one who is not bound to any ring and who has the courage to do right at all times. It is to be sincerely hoped that the whole ticket will be composed of the best class of men.

School Money.

Superintendent Thompson sends out the following circular which will be of interest to many of our teachers and other readers:

2. "The question as to when the remaining ten per cent due teachers will be paid by the State comes from every section, and I would be glad to answer definitely, and especially to be able to name a very early day, but this cannot be done, as it is not possible for our fiscal officers to fix a time when we will be able to honor the promise."

The impression must be obtained in some quarters that it is not to be paid at all, and it is his singular misapprehension which I wish particularly to correct. While there is unavoidable delay, there is no possibility of a failure to pay in full the balance due. The financial stress in which the State finds herself is owing to causes which have been so often explained that it seems unnecessary to reiterate. Owing to legal extensions of time of time when certain taxes must be paid, the State revenue is not in, and the Treasurer cannot disburse from an empty exchequer. Another misapprehension is that our representation is not at the State and find has been drawn upon for other purposes. This is not so. The payments to our teachers are from rather in excess of the amount collected and to the credit of the School Fund there is no doubt.

The entire amount of the State fund is not at the State and find has been drawn upon for other purposes. This is not so. The payments to our teachers are from rather in excess of the amount collected and to the credit of the School Fund there is no doubt.

"The politician is my shepherd; I shall not want any good thing during the campaign. He lendeth me into the salvation for my voice's sake. He filleth my pocket with five dollars, and my beer glass runneth over. He lapeth after the death of my family, even unto the fourth generation. Vea, though I walk through the mud and rain to vote for him, and shout myself hoarse, when he is elected he straightway forgetteth me. Vea, though I meet him in his office, he knoweth me not. Surely, the world has been pulled over my eyes all the days of my life."

Blighted Bliss.

The following from the Cincinnati Enquirer relates to a former citizen of Louisa:

"Whether she loves me or loves me not, sometimes it's hard to tell," has been the experience of Mr. T. J. Davis, the Paying Teller of the Fifth National Bank all through an exciting courtship with Miss Marguerite Nowlin, the only daughter of Auditor-elect A. E. Nowlin, of Lawrenceburg, Ind. Mr. Davis finally succeeded in overcoming the capriciousness of the young lady and the nuptial day was set for yesterday and was to have been a very quiet affair, owing to the recent death of a relative of Miss Nowlin.

Tuesday Mr. Davis visited Lawrenceburg and had a dramatic interview with Miss Nowlin, in the course of which the young lady told him that she discovered that she did not love him enough to marry him. Mr. Davis was at his usual place in the bank yesterday and is taking a very philosophical view of the matter.

"The invitations to the wedding were issued, and many presents had begun to arrive at the home of the bride elect. The wedding supper was being prepared all day Tuesday, Miss Nowlin assisting. Suddenly, about 3 o'clock, she turned up missing and it has since developed that she went over to the junction and took the Big Four train for Indianapolis, Ind., which leaves Cincinnati at 3 p. m.

On the train Miss Nowlin met an old man acquaintance to whom she told the following story: "I did not like Mr. Davis in the least and would not marry him under any circumstances. He did not impress me as a very ardent lover, and I was of the opinion that at 18, that being my age, I was not old enough to marry."

When the pair arrived at the depot in Indianapolis she asked the gentleman to show her in a street car, upon which she rode to the residence of her uncle.—Enquirer, Feb. 8.

Sudden Call.

John Pigg dropped dead while at work on the railroad about two miles above this place Wednesday forenoon. He was employed as a section hand on the railroad and at the time of the sudden summons he was holding a torch under a frozen pipe at the railroad's water tank. Tom Blankenship was the only person with him. The unfortunate man had not the slightest warning and did not utter a word, dying with but a few gasps after the attack.

He had worked very steadily for about three years in the position which he held at his death. He was an industrious and quiet citizen and his sudden taking off is quite sad. He leaves a wife and one child, a little daughter. The burial will take place today.

Woolen Wedding.

Rev. and Mrs. J. T. French will celebrate the fifth anniversary of their marriage with a woolen wedding. The date is February 25th. They request us to announce that a general invitation is extended to the people of this vicinity. No cards will be issued. The married people are invited to the paragonage from six until eight o'clock p. m. and the unmarried from eight until ten o'clock.

Prisoner Caught.

Sam Meade, one of the prisoners who escaped from the Catlettsburg jail, was caught just across the river from this place yesterday afternoon by Mr. Cal Beare. Meade is under sentence of two years in the pen for stealing meat. He told Mr. Beare who he was and all about the matter.

For Rent.

Two farms, well adapted to tobacco raising. New cleared land. Last year's crop to be seen in the barns. Good dwellings and barns, including tobacco barns. Address or inquire of J. A. H. NORTON, Louisa Ky.

Did you know the highest of the life of the country newspaper man and some of the speeches rendered in this line are sufficient to make the object of their notice have night maras in his last long sleep. Possibly the worst we have yet seen comes in an exchange as follows:

"I gave him his medicine regular. From noon till the set of sun. He took two powders at 10 o'clock. And another powder at 1.

But doctors can not help us. When death knocks at the door: Good-bye, my darling husband! You left at 10 minutes to 1!"

A Great Many Children have been cured of scrofula and other skin diseases—as well as thousands of grown people, by taking Dr. Hodge's Golden Medical Discovery. Every disorder that can be reached through the blood, yields to its purifying qualities. It cures, it builds up wholesome flesh and strength; not merely fat like Cod liver oil. A venereal condition of the blood (leucorrhoea, gonorrhea, and consumption). We are all exposed to the germ of contamination, grip, or malaria—yet only the weak catch it. When you're weak, tired out, and debilitated, or when pimples and blotches appear—heed the warning in time. The "Discovery" sets all the organs into healthy action—especially the liver, for that's the root of entrance for these germs. Then if the blood is pure, they'll be thrown off. There's no risk. It is safe to benefit or cure in all cases of impure blood or inactive liver, your money is returned.

WEBBVILLE.

The thermometer is ranging from 12 to 15 degrees below zero. W. L. Green, the hotel man, who has been very sick, is able to be out again.

Ezra Woods, son of Judge Woods, while out riding was thrown from his horse and thought to be badly injured, but was soon able to be out again.

Mrs. W. L. Green is on the sick list at this writing. The people are talking of having our town incorporated. I think it would be a great help to our community.

New Hope Castle No. 7, K. G. E., gave an entertainment on Feb. 6th, that being the date on which this noble order was founded. The entertainment consisted of supper, and oh what a supper it was! Good things of all description. The castle opened in public, after which the ladies proceeded to spread the many good things on the two tables, which were thirty feet each. It was a sight to see the hungry Eagles and their wives and many friends around the table all the time the grub was being served. G. E. Cramer and E. H. D. Webb gave us plenty of music, all of which was enjoyed. Among the many people I saw Dr. A. G. Berry and his sister, Miss Ella, of Ashland. Dr. is the Grand Chief of K. G. E. After supper was over we were nicely entertained by G. E. Cramer with his magic lantern show. All left for their homes well pleased.

The grand jury at Mt. Sterling has returned three indictments against persons charged with participating in the lynching of Tom Blair. The last indictment is against the son of the sheriff.

At Welch, W. Va., Cliff Tolan and William Dennis, colored, miners, were killed by a Norfolk & Western engine, while walking on the track near Switchback. The wind and blinding snow prevented them from hearing the approaching engine.

Mr. Sterling: Charles Ratcliff attempted suicide by shooting himself in the left breast with a revolver. He is the same young man who some three weeks since created a sensation by swearing out a warrant for the arrest of Detective George Drake, at the time engaged here in working up a case against the lynchers of Tom Blair, who was hanged on the morning of January 1.

Johnson County.

Circuit Court closed last Saturday. The grand jury was in session eleven days and reported 132 indictments. James Johnson was convicted of house breaking and given five years in the penitentiary. George Turney was convicted of an attempted outrage on a little girl and also got five years in the pen. Both of these men were from Ohio and Johnson said he had been educated by the Cincinnati Enquirer published in his native city.

Augustus Underwood, sent here for trial from Martin county, indicted for the murder of John James in said county, was convicted of manslaughter and given two years in the pen. The regular Judge was sick the second week of the court and Judge James Golde, of Prestonsburg, held the court the second week. Horn, to I. M. Williams and wife a boy—christened Ralph Booten Williams. Ervin Stafford, son of M. W. Stafford, is very sick. J. C. Mayo is improving very slowly. Hon. J. H. Hatten is still nursing him.
